

## **Accepting Payments at the Studio**

Especially if you have higher priced work for sale, make it easy for people to pay you via credit card or a cash app.

Useful article about cash apps including Venmo.

## **Create a Merchant Account - Quick and easy setup**

### **Square**

<https://squareup.com/signup/en-US>

Get a free card reader: <https://squareup.com/us/en/hardware/reader>

You can also purchase a Square card reader at Staples that plugs into your phone or tablet that you can use to accept cards.

### **PayPal**

**Venmo** (owned by PayPal) see article above. This is an app you download to your phone.

<https://venmo.com/send-receive/start/>

## **Print out QR Codes for Payment and post in the sales area of your studio.**

How to do this with Venmo:

1. Open the app and click on “me”, on the bottom right of your screen. This brings up your Profile page.
2. You’ll see your picture (if you’ve added that to your account) in the center/top of your screen. There should be an icon overlapping the lower right of your picture. Click on your picture.
3. This brings you to a screen with your picture in the middle of a QR code. There are action icons beneath it, for downloading, emailing or printing a PDF of your QR code.
